

amtico click

Amtico Click. Style that simply fits.

An introduction to **Click**

Amtico Click is a simple, straight-forward and versatile click-vinyl that's easy and quick to install. It can be fitted over Amtico Underlay-19 and there's no need to use adhesive, making it a really appealing option.

There's no compromise on style either. With an authentic range of wood and stone effect products to choose from, a beautiful floor is just a few clicks away.

Year Residential
Warranty

Whatever your taste and design style, Amtico Click has an authentic looking wooden flooring solution you'll love.

Wood

Why we love wood...

Perfect for either traditional or contemporary homes, there's an Amtico Click wood flooring for everyone. From deep, dark, dusky shades to bright and pale oak, the colour palette is on-trend and versatile.

Left: White Ash - SC5W2540

Above: Dusky Walnut - SC5W2542

Perfect for...

Creating a simple and elegant finish, light woods work well in contemporary or traditional schemes. In a large space, pair light wood against darker walls or surfaces for a feeling of natural continuity which doesn't look too stark. When used in smaller rooms, light wood will really help to open up the space.

For a traditional finish, try Honey Oak or New England Oak to bring a charm to the space.

Tick Grain finish

Perfect for...

Bringing a touch of classic elegance, whether smooth and glossy or textured and rustic. While darks may seem the obvious choice for large spaces, they bring cosiness and depth to smaller spaces.

Warm darks such as Black Walnut bring a contemporary and clean finish, whereas the authentic, country finish of Dry Cedar adds artisan charm.

Why we love stone...

With its effortless style and contemporary finish, stone remains a popular choice for flooring. From a rugged travertine finish to a smooth, sleek slate, easy-to-fit Click has something for everyone.

Simple Stones

Our favourite stones...

The soft stone tones of Ceramic Ecrú and Crema Travertine are our favourite ways to light up a floor.

Bring the dark force home with Wave Slate Black and Monmouth Slate for a sleek and stylish finish.

Installation

Amtico Click can be installed over most existing hard floor surfaces and subfloors that are solid, smooth and dry.

Do not install Click floors outdoor or in areas with large temperature fluctuations or excessive direct heat, for example in unheated rooms, conservatories or direct sun through south facing patio doors.

Allow expansion gaps of 5mm at the perimeter and around any fixed object. Amtico Underlay-19 provides a 19dB sound improvement — only Amtico underlays should be used. Suitable for use with underfloor heating.

Preparation

Preparation is key and will ensure your Click flooring looks

the best it can be. It is vitally important to make sure the base is smooth and flat before you start to install the floor. If desired, undercut door frames for a perfect fit.

Fitting The Flooring

If you decide to put down Amtico underlay, fit this first placing the outside of the roll facing down. Next lay the first plank of flooring with the tongue side facing the wall as per step 4. Continue to lay the flooring as per steps 5-10.

Finishing Your Floor

Once you've finished laying your Click flooring, refit the skirting board or fix the edge trim to the wall as shown in steps 11 and 12.

Step 1
Make sure the base is smooth and flat

Step 2 (optional)
Undercut the door frame

Step 3
Lay Amtico Underlay-19. Outside of the roll should be placed facing down

Step 4
Lay the first plank with tongue side facing wall using spacers

Step 5
Fit the second plank

Step 6
Cut and fit the final plank in the first row

Step 7 (optional)
Use offcut from previous row

Step 8
Fit additional planks in the second row

Step 9
Measure and cut the final row of planks, allowing for an expansion gap

Step 10
Pullbar and rubber mallet can be used for the final row of planks, ensuring an expansion gap

Step 11
Refit the skirting board with expansion gap hidden

Step 12
Fix the edge trim to the wall to hide the expansion gap if skirting board was not removed

Wear & Care

Avoid using aerosol sprays and other silicone based products, as overspray can leave a residue and make the floor slippery.

Use Amtico Entrance Matting at all external doorways. This will help reduce the chance of water, excess grit, dirt, small stones and other debris being walked onto the floor. Some rubber backed matting can cause permanent staining.

Spillages should be wiped up immediately. Residues of oils and greases are potential slip hazards. The affected area should be thoroughly cleaned with Amtico FloorCare Maintainer, or our ready to use Amtico FloorCare Spillage Remover.

Avoid contact with rubber, asphalt, some paints and shoe polishes, which can potentially stain your floor.

Do not allow cigarettes, matches or other hot items to be deposited on the floor as permanent damage is likely to occur.

Amtico floors have good scratch resistance properties. However, sharp edges on some items of furniture can damage the floor and care should be taken when using vacuum cleaners as they may scratch your floor.

The use of furniture cups, felt pads or glides is essential to help reduce the risk of scratching your floor.

Do not drag heavy items of furniture across the floor as this can result in serious scratch marks. Care should be taken with a brand new floor when furniture and other appliances are being fitted or placed back into the space.

Castors, furniture cups and other means of load spreading will help reduce the risk of indentation to the floor when used under heavy load bearing furniture and appliances.

Do not use steam mops as these may damage the planks and tiles.

Routine Cleaning

Amtico FloorCare Maintainer

Our concentrated cleaner, with a fresh, citrus aroma for routine cleaning.

Amtico FloorCare Spillage Remover

A ready to use cleaner with a citrus aroma. Formulated for the convenient removal of spills and other deposits.

We do not advocate the use of other cleaning products, as they may not work as efficiently or effectively and may cause damage to the floor or leave the surface with a slippery residue.
