

INTEGRATED DESIGN SOLUTIONS

WHY DEAL WITH MULTIPLE SUPPLIERS
WHEN YOU CAN DEAL WITH ONE?

FORBO FLOORING SYSTEMS IS A GLOBAL PRODUCER OF FLOORING SOLUTIONS.

Our flooring solutions offer includes:

- Environmentally friendly, functional and design-oriented Marmoleum
- An extensive range of sheet Project vinyls, Acoustic vinyls and Safety vinyls
- Static control flooring for areas with sensitive electronic equipment
- High quality European manufactured Luxury Vinyl Tiles
- Entrance flooring systems that keep interior floors clean, dry and safe
- Carpet tiles for both public and commercial environments
- Flocked sheet and tile for areas that need the benefits of both textile and resilient floor coverings
- Cushioned vinyls for the home

Here is a selection of the thousands of men and women that create Forbo floor coverings in 12 manufacturing sites across Europe, including five in the UK.

CREATIVE DESIGN **FOR FLOORS**

The floor is a crucial element of a building's interior design; creating the first impression and setting the tone. Our tantalising range of colours, textures and products will provide you with endless creative possibilities.

Whether you are looking to recreate a complex logo or design feature, match that perfect colour for your interior or visualise an entire flooring design scheme, we have the knowledge and technology to help and guide you every step of the way. From the conception of your idea, through to the production and final installation, our in-house team of design experts have the

skills and experience to take your ideas and turn them into reality. The resulting designs retain all the performance characteristics of the original product.

The following pages aim to provide you with information on Forbo and how our products can be used to create innovative, design led floors.

YOU'RE THINKING TIME IS PRECIOUS, WE'RE THINKING, WE AGREE

Why deal with multiple suppliers when you can deal with one? Forbo Flooring Systems is a global producer of flooring solutions. We pride ourselves on offering a truly comprehensive product portfolio with leading edge products specifically designed to cater for each area of a project, from the entrance, through circulation and communal zones, to each individual space in the building.

We are also a major British manufacturer with five UK manufacturing plants employing more than 500 UK staff.

Our flooring solutions offer includes:-

- Environmentally friendly, functional and design-oriented Marmoleum
- An extensive range of sheet Project vinyls, Acoustic vinyls and Safety vinyls
- Static control flooring for areas with sensitive electronic equipment
- High quality European manufactured Luxury Vinyl Tiles
- Entrance flooring systems that keep interior floors clean, dry and safe
- Carpet tiles for both public and commercial environments
- Flocked sheet and tile for areas that need the benefits of both textile and resilient floor coverings
- Cushioned vinyls for the home

With a range of subfloor systems, Eurocol adhesives and Floor Care products to complete this extensive and versatile product portfolio, Forbo Flooring Systems can deliver 'integrated solutions' for every project. The single source solution overcomes the need for multiple supplier visits and provides total accountability across the project, saving you valuable time, money and providing peace of mind. This brochure details our solutions for design floors. For information on any of our product ranges, please ring **0800 731 2369**.

Forbo's products are available in a vast array of colourways and offer a wide choice of performance attributes. Flooring installations in a variety of application areas ranging from hospitals and schools to airports and designer shops are proof that Forbo offers modern, versatile, high performing floor coverings.

The following pages provide inspiration on the colours and structures of many of our collections in various market sectors.

CREATING BETTER ENVIRONMENTS

From how they're made to how they perform, we make outstanding floors that are truly sustainable. That's because our floors are good for people, good for buildings and good for the environment. So, from the building they're in to the world outside, we're helping our customers work, live and relax in better environments.

It's about the things you can't see

A Forbo floor is always beautiful and stylish to look at. A floor that's comfortable to live, work and play on. But looks aren't everything; often, it's the things you can't see that really matter.

From how it's made, our footprint...

From how we run our factories to how we choose our ingredients, the way we make our floors is a big part of how we meet our mission to create better environments.

...To how it performs, Your Footsteps...

We include the whole life of a floor when we think about its sustainability performance. Which means we make sure our floors start performing from the moment they're fitted. The following page shows some examples of our sustainability initiatives. For more details, please visit our web site www.forbo-flooring.co.uk/cbe

Green information

We provide environmental data sheets for our products which are available online. Please visit www.forbo-flooring.co.uk/cbedownloads to download the data sheets.

We also provide high quality electronic information such as **BIM models** with all the relevant and up-to-date information included. Visit www.forbo-flooring.co.uk/BIM to find out more.

Site certification

As well as reducing our impact on the planet, we're also working on caring for the people that touch our business, from employees to suppliers. That's why all our UK manufacturing facilities and most of our sites in Europe are certified to OHSAS 18001 – Occupational Health and Safety and SA8000®. The SA8000 Standard, established by SAI and one of the world's preeminent social standards, is a tool for implementing international labour standards to protect workers along each step of the supply chain.

COMMITTED TO THE HEALTH OF ONE

SAFETY

In safe indoor environments floors are non-toxic, low emitting and compliant to all international standards. On top of this, a safe floor is designed to prevent accidents, guiding the visually impaired and comforting dementia patients, just as it creates a safe environment in clean room facilities and operating theatres.

HYGIENE

Hygienic flooring solutions are designed to be easy to clean, controlling fine dust in one environment and preventing allergies in another. Hygienic flooring solutions are specific to the application, they can be used for aiding infection control or as the basis for a clean playing environment.

WELL-BEING

A state of well-being and comfort can be achieved by being in control of factors that stimulate the senses in the indoor environment. Through their colour and design, floors are capable of creating the atmosphere of an indoor space, making people feel relaxed and comfortable or vibrant and energetic.

Health refers to a safe, clean and comfortable environment both at home and in your work place. But health is much more: it determines the way you live.

Through our flooring solutions it is our ambition to make a positive contribution to your health and well-being in your environment. That is why for us our commitment to sustainability is a commitment to your health.

YOUR FOOTSTEPS

How it performs

GREEN CERTIFICATION

We use several transparent independent third party certification systems for our flooring products. We're also keen to include our products in the building rating systems for a sustainable environment.

It's good for Forbo because it helps us share our sustainability story and spot opportunities to improve.

And it's good for you because it shows that other environmental experts agree that our floors are among the most sustainable and high performance available.

The **Nordic Swan**, **Blue Angel**, **BREEAM** and **Natureplus** are just a few of the sustainable product labels that Forbo complies to.

Just visit www.forbo-flooring.co.uk/cbe to find out more.

BREEAM

[Building Research Establishment Environmental Assessment Methodology]

BREEAM is the world's most well-known environmental assessment for buildings. The table opposite shows the BREEAM ratings for our carpet tile ranges. For a full list of all our BREEAM certified products, please visit www.forbo-flooring.co.uk/cbedownloads

SKA

Ska rating is an environmental assessment method, benchmark and standard owned by RICS (Royal Institute of Chartered Surveyors). It's for use in non-domestic fit outs and is mainly used in the office and retail sectors.

Many of Forbo's ranges contribute to the overall Ska rating of a fit out. The table opposite shows which of our carpet tile ranges meet the best practice criteria for soft floor coverings in both the retail and office schemes.

LEED

[Leadership in Energy and Environmental Design]

LEED is the most widely used environmental certification programme in the US, and is recognised internationally. This programme awards ratings based on the whole performance of a building, instead of individual products, such as flooring.

To find out more about our LEED ratings visit the downloads section of our web site and download the environmental product data sheet for the relevant product www.forbo-flooring.co.uk/cbedownloads

Maintenance

Appropriate care and maintenance is essential to longevity and appearance retention and is necessary to maintain product warranties. Refer to the clean and care instructions available from Forbo Flooring Systems. All Tessera products are suitable for cleaning using the Dry Fusion technique. Dry Fusion uses 95% less water than the normal system of cleaning, produces no waste product, uses non hazardous and biodegradable cleaning solutions and all packaging and materials within the Dry Fusion System can be recycled.

End of life

Products suitable for reuse, recycling, downcycling and waste to energy. Forbo Flooring Systems is a member of Carpet Recycling UK who are working towards increasing reuse, repurposing and recycling of carpet tiles in the UK.

Potential direct or indirect contribution to following categories and credits:

Materials and Resources

Materials and resources - construction waste management through Back To The Floor, credit 2

Indoor environmental quality

Regional materials, credit 5
Indoor environmental quality, low emitting materials - credit 4.3

Forbo design principles (Reduce, Recycle, Reuse, Renew)

Reduce

Ultrasonic cutting reduces cutting waste by 80% compared to traditional cross cutting.

Reuse

Yarn ends are reword and used in the production of new Tessera Carpet tiles. Cutting waste and imperfect tiles can be reprocessed and turned into backing at our Bamber Bridge plant - creating a closed loop process. All Tessera samples can be returned allowing them to be reused or recycled, reducing the need for virgin material.

Recycle

Yarns, fillers and compounds all contain recycled materials. All Tessera carpet tile made in the UK contain at least 50% recycled content by weight.

Renew

All tiles manufactured at Bamber Bridge are made with 100% renewable electricity.

BREEAM ratings – a note of caution

As you can see from the table above, we could claim that almost all of our products have an A+ rating and leave it there, because in a retail application, this is what we achieve. However, we show all our ratings by application to allow you to make an informed choice. If other manufacturers claim A+ ratings, please check that the manufacturer is being specific about the application.

For more detailed information on the sustainability profile of our products, please visit www.forbo-flooring.co.uk/cbedownloads to download any of our environmental data sheets.

IMPORTANCE OF **DESIGN**

Project facts:
Nearly 2,500m² of bespoke digitally printed vinyl was used alongside Marmoleum in this primary school in Hong Kong.

No matter what kind of project you are working on, products from across our wide portfolio can be used together or on their own to bring a unique and appealing touch to any interior scheme.

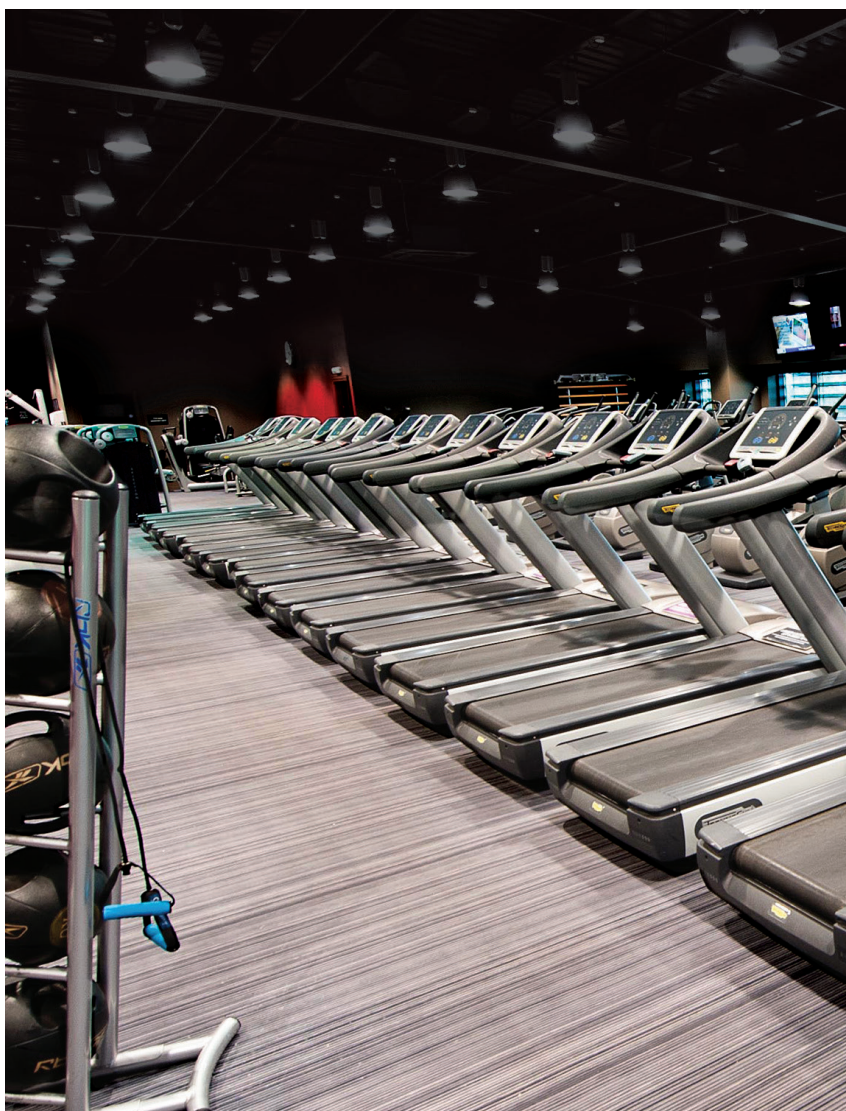

Workspaces are increasingly becoming areas where creativity and design can have an impact on those who do business there.

Our textile and resilient ranges suit every type of workspace, from the most dynamic and vibrant spaces to more subdued and formal surroundings.

With large collections of sheet and tile, our portfolio provides a wide choice of colours and textures with which to create both stimulating and relaxing environments.

Project facts:
Marmoleum has been used to provide a neutral background allowing the furniture to provide the colour in this striking installation in Santiago, Chile.

Project facts:

The De Vere Village hotel in Manchester chose Flotex Sottsass in Wool design for their gymnasium as it offered style alongside the functionality frequently required in leisure and hospitality venues – good acoustics, hard wearing, excellent cleaning properties and bacteriostatic.

From nurseries to academies and universities, Forbo Flooring Systems can help to create stylish yet low maintenance floors that bring interest and creativity to educational establishments.

From reception areas to patient bedrooms, our collections of resilient floor coverings can be used to create striking bespoke designs without compromising on performance.

Project facts:

Marmoleum real, cut using Aquajet technology, has been specified for Frome Community Hospital to create a striking, bespoke design, aimed at enhancing the healing environment. Comprising 28 patient rooms, the hospital required a flooring system that could withstand the daily wear and tear of a healthcare environment, as well as creating a relaxing atmosphere for patients and visitors.

LASTING IMPRESSIONS – ENTRANCES

Coral at Staffordshire police headquarters

When it comes to making a good impression, entrance areas are the ideal opportunity to make a first impression, your first opportunity to promote your company and its values.

As well as providing a high performance entrance system, our Nuway engineered mats and Coral textile “clean off” systems both offer the opportunity for unique design solutions.

As entrance systems help to keep interior finishes clean and dry, they also ensure that your flooring design makes a lasting impression.

Project facts:

In Waterford Regional Hospital, Nuway and Marmoleum have been used to create a striking and friendly entrance.

Opposite: Nuway Tuftiguard at Whitewater shopping centre

55 Baker Street, London

Reflecting the personality of a company, brand or building, the design of the floor can play a huge role.

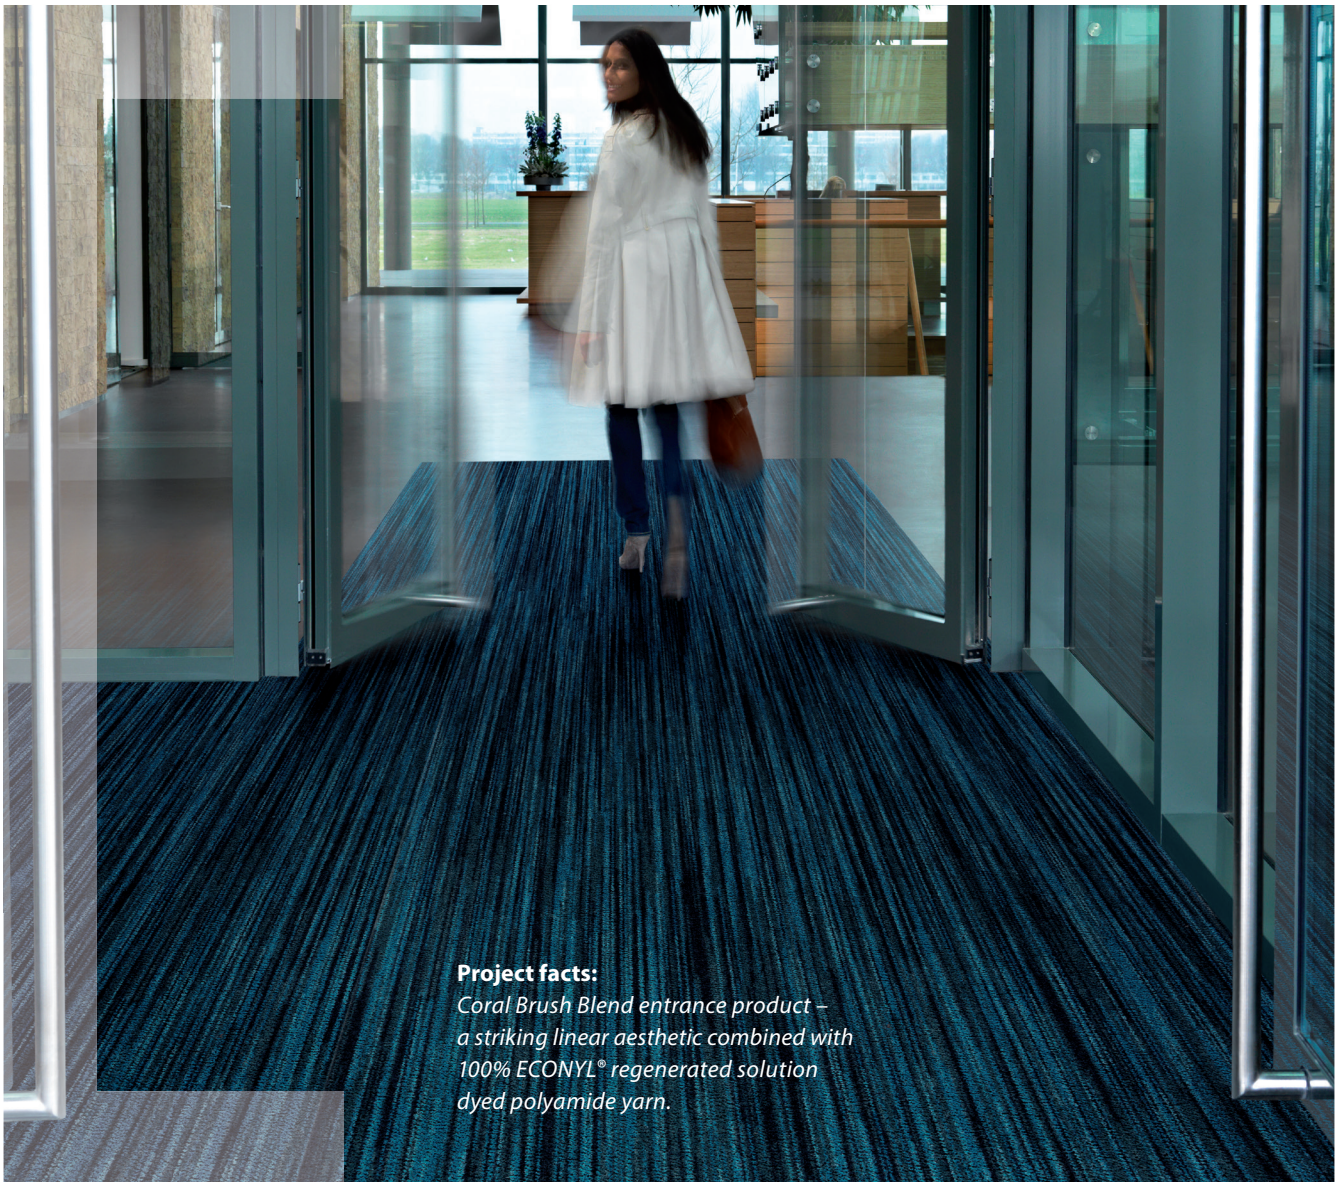

Whether you are looking to make a statement in an entrance or reception area, or subtly reflect corporate identity into offices and breakout areas, Forbo can offer a range of design options across our wide product portfolio to help you.

nuway[®] tuftiguard

Nuway:

Manufactured according to the specification of each individual entrance, and hand assembled, the wide choice of colours in our Nuway Tuftiguard collection mean entrance mats no longer need to be just a functional necessity. From company logos to eye catching designs, our design team can help you create an entrance that fits seamlessly into your interior design scheme.

LASTING IMPRESSIONS – ENTRANCES

Project facts:

Coral Brush Blend entrance product – a striking linear aesthetic combined with 100% ECONYL® regenerated solution dyed polyamide yarn.

An effective entrance flooring system can prolong the life of interior floor coverings and prevent slip injuries. It can also add colour and design to any interior scheme.

Coral printed logo mat:

When it comes to replicating more complex designs or matching that perfect colour or corporate tint, our Coral Logo digitally printed mats provide the ideal solution. Printed on a specially manufactured base, with the option to choose up to 16 colours from our bank of 42 standard colours, entrances can be turned into works of art. We can even reproduce Pantone or RAL colours if the occasion calls for it, giving you complete control over every aspect of your design.

Project facts:

To guarantee a lasting first impression, Newport City council's architects took advantage of Coral Logo's design service to include their brand identity in a major refurbishment project to transform a historic railway building into a public service 'hub'.

coral®

Coral inset logo mat:

Our Coral textile systems allow you the choice of up to four colours per design from our extensive collection, all precision cut to give you a design feature that doesn't compromise on performance.

Please note: Digital representations may vary from the actual product. Please order a sample to see the full effect. Contact 0800 731 2369.

CORPORATE IDENTITY – BRANDS AND LOGOS

Virtually all our floor coverings can be cut to recreate logos, offering endless opportunity for design. With the precision to cut widths of just a few millimetres, the most intricate of designs can be reproduced to stunning effect.

Logo design using Aquajet technology

Working from almost any type of file, our Aquajet design team can recreate your company logos and crests at any scale. And with over 160 colourways to choose from in the Marmoleum collection alone, finding the perfect combination of colours is easy.

Project facts

Durham University was able to recreate its shield and motto thanks to the extensive colour palette of our cut pile carpet tile collection.

Project facts

Flotex flocked flooring has been used to create an impressive military logo at The Tower of London.

For areas that require the softer feel of a textile floor covering, our carpet tiles and Flotex collections can be specially cut to create spectacular central features.

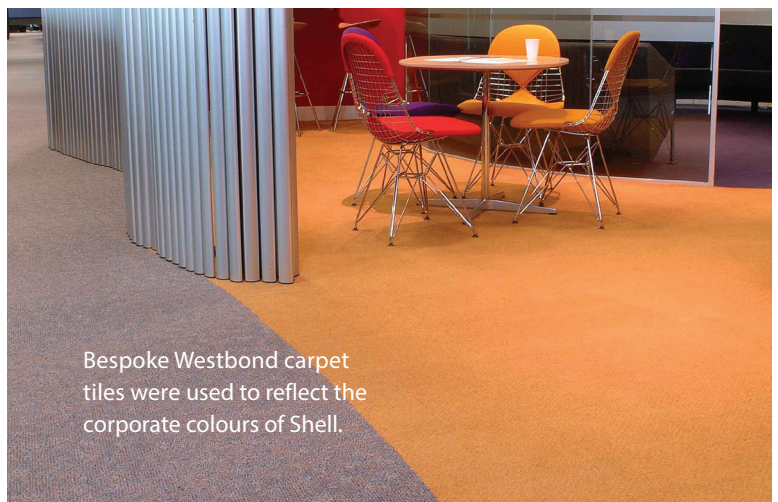

CORPORATE IDENTITY – INTERIOR COLOUR

Project facts:

Peacock Interiors in Dublin created a symbiosis between two office floors at IT Alliance Group's new premises. This was achieved by installing a mixture of Tessera and Westbond carpet tiles to reflect the company's corporate colours and branding while maintaining a fresh and contemporary space.

Corporate Identity is often defined by a specific corporate colour, giving unity across brochures, point of sale and advertising. Why not bring this colour to life as part of your interior design scheme?

Bespoke Westbond carpet tiles were used to reflect the corporate colours of Shell.

Using Westbond colour carpet tiles enables unique designs to be created using any desired colourways.

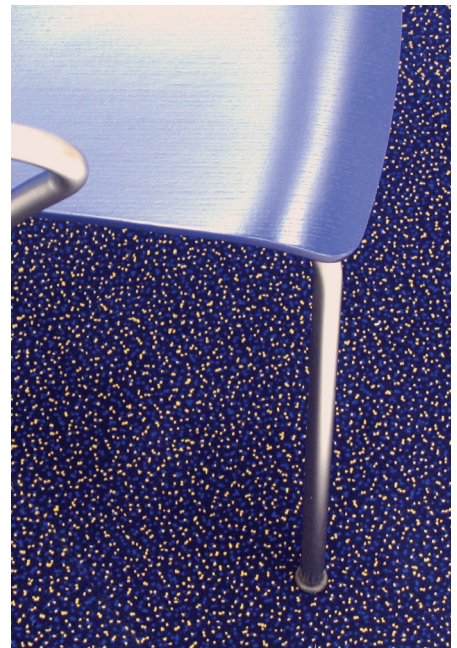

Project facts:

Bespoke colour carpet tiles were used to recreate the Eversheds interlocking logo at their offices in Leeds.

Project facts:

When GHD wanted a breathtaking design for their new Leeds headquarters, they felt that the luxurious Westbond tiles embodied the company's mantra of 'fashion, style and image.'

Defining corporate identity using bespoke Westbond carpet tile at RBS.

DESIGN FEATURES

Allura Premium can be used to create an inspirational area with the floor being a key element of the design of any space.

Whether it's a school, office or a hospital, flooring in any area of a building can be used to add interest and character through the use of a design feature, no matter what the product.

From the quirky and unique, to designating walkways and break out areas, products from across our portfolio can be used to create individual designs that are inspirational as well as functional.

Project facts

The Flotex Sottsass wool design has been used at Brace Place dentistry to provide a colourful, hygienic and calming interior.

Project facts

Flotex Vision and Flotex Colour were used in Elim Christian College in New Zealand.

Project facts

Tessera Teviot carpet tiles have been used to create a colourful and inspiring yet highly practical floor for Croxteth Primary School based in Liverpool.

DESIGN FEATURES – SIMPLE COMBINATIONS

Allura Premium can be used to create an inspirational area with the floor being a key element of the design of any space.

To create an instant yet effective design, our sheet, tile and plank products can be quickly combined or hand cut on site to create individuality on the floor.

Allura luxury vinyl tiles can be used in a variety of applications and here it's been used within a stylish bar area adding elegance and practicality to the design.

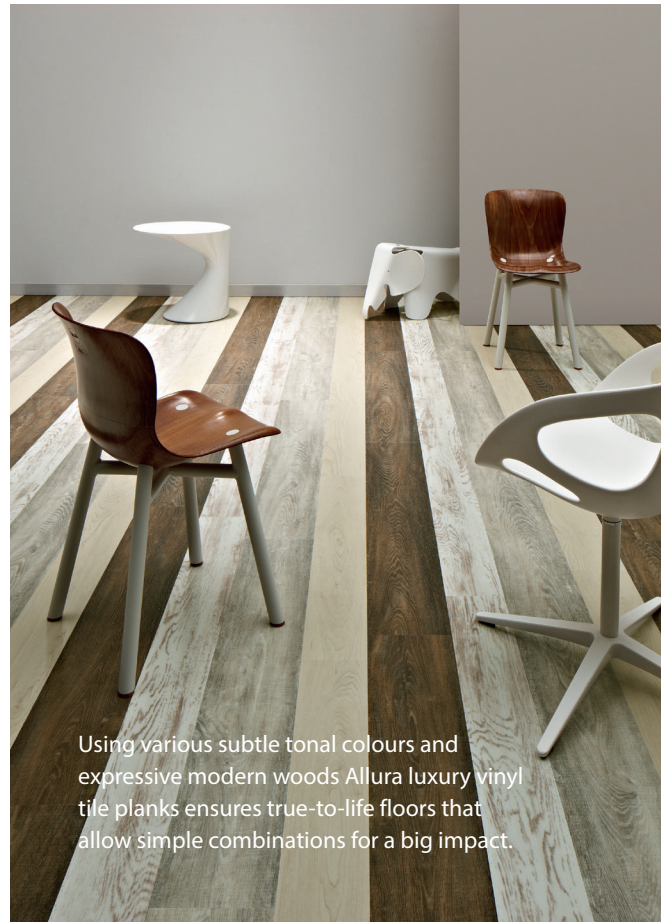

Project facts

Le Fringe hairdressing salon features an exoskeleton ribbed effect of various shades of Marmoleum interspersed with glass which gives vantage to the continued colour panels across the floor and ceiling.

Project facts

Tessera Alignment has been used to create a professional working environment within an office in Siège Social FM Global, France. Alignment highlights has been used to create effective and bright accent colours for certain areas of the offices.

Using various subtle tonal colours and expressive modern woods Allura luxury vinyl tile planks ensures true-to-life floors that allow simple combinations for a big impact.

Allura luxury vinyl tiles offer eye catching design along with exceptional performance and sustainability credentials.

Please note: Digital representations may vary from the actual product.
Please order a sample to see the full effect. Contact 0800 731 2369.

Project facts

Various colours of Allura LVT, along with Coral, Tessera carpet tiles and Surestep safety floor have been used at Staffordshire police headquarters to create clearly delineated areas.

DESIGN FEATURES – COLOUR CONNECTIONS

Carpet tile collections, such as Tessera's Create Space collection, have intrinsic colour connections so meeting spaces, walkways and clearly defined breakout areas can all be incorporated into the flooring design by combining various elements of the Create Space collection.

SHAPE CONNECTIONS

Our Allura LVT range also has elements that have been designed as collections linked by colours. The digitally printed Allura offers striking colour combinations while the Allura Flex 0.55 collection offers a variety of designs ranging from natural stones and woods to metallic and textured effects.

Please note: Digital representations may vary from the actual product. Please order a sample to see the full effect. Contact 0800 731 2369.

DESIGN FEATURES – TEXTURE COMBINATIONS

The Forbo Synergy collection combines three design elements, texture, colour and shape. The collection incorporates the R10 embossed surface of Allura Flex vinyl tiles with the textured carpet tiles in Hybrid, Seagrass or Marble and the velvet finish of Tessera Clarity carpet tiles.

DESIGN FEATURES – IT'S IN THE DETAIL

Project facts

Contrasting colours of Marmoleum have been used to great effect in the Barolo restaurant in the Netherlands.

When you need more than a logo cutting but still want a very detailed floor pattern, Forbo's aquajet facility can help you create amazing detailed flooring. Alternatively, you can create an eye catching design in both resilient and carpet tile collections by cutting in situ.

Infinite colour possibilities and exceptional quality, from as little as 1m² with Westbond carpet tiles. The stylish striped effect shown here was achieved by cutting the Westbond carpet tiles into 5cm strips on site.

Please note: Digital representations may vary from the actual product. Please order a sample to see the full effect. Contact 0800 731 2369.

DESIGN FEATURES – IT'S IN THE DETAIL

Allura luxury vinyl tiles

The most effective of impressions can often be made from the simplest of designs. By choosing a different laying method, an individual floor design can be created with only one product. Alternatively, colour blocking in large areas can also make a strong design statement.

Project facts

Using Flotex Vision in the European Headquarters of EON Reality, a world leading interactive 3D software provider, located in Manchester, EON Reality have been able to create a modern and futuristic interior with the fun patterned aesthetics in keeping with EON Reality's branding.

Project facts

Bilfen Kurtköy Primary School in Istanbul, Turkey has created a colourful and effective walkway within a primary school allowing a colourful design to be extended up the walls of the hallway.

Allura luxury vinyl tiles

Westbond carpet tiles

DESIGN FEATURES – DESIGNATING WALKWAYS AND AREAS

Our Flotex Colour and Linear collections can also be used to great decorative effect.

Flotex artline is a collection of 26 block coloured strips of our unique flocked floor covering, available in 11cm and 22cm widths, which can be used in conjunction with any of our Flotex ranges to create an effective and attractive floor design.

Flotex Colour alongside Flotex Artline borders

Modern life in open plan spaces can mean that the ability to clearly designate walkways and breakout areas can form an integral part of a floor plan.

Project facts

Flotex Vision and Flotex Colour tiles were used at Maison de l'Odyssée, Amiens, France to create a designated walk way.

Flotex Vision and Flotex Colour

DESIGN FEATURES – MODULARITY

Marmoleum Modular design tiles

Allura Premium

Westbond carpet tiles

Forbo's extensive range of modular products provides the ultimate flexibility in flooring design using standard products. With a modular offer including carpet tiles, Marmoleum tiles, LVT, Flotex and vinyl tiles, the floor is yours.

Different aesthetic effects can be achieved depending on the direction of which modular products are installed. As an example the images below show the different aesthetic when Tessera Create Space 2 or Create Space 3 tiles are installed in a non-directional, broadloom, tessellated or half drop style.

Please note: Digital representations may vary from the actual product. Please order a sample to see the full effect. Contact 0800 731 2369.

UNIQUE SOLUTIONS – BESPOKE ELEMENTS

To create a truly unique focal point, products from across our resilient and textile collections can be cut to create a flooring scheme that offers something out of the ordinary.

Carpet tiles:

Carpet tiles are often a popular choice of flooring for office areas, not only for their choice of colour and texture but also for their ability to offer the opportunity to create bespoke features as part of an overall design scheme.

Project facts

First Direct has created a bright, funky working environment using Tessera Alignment and Acrobat carpet tiles.

UNIQUE SOLUTIONS – BESPOKE CARPET TILES

The inclusion of a bespoke design allows customers to create unique interiors that reflect their identity.

The use of Westbond carpet tiles allows customers to take control of the process of designing luxurious, bespoke, carpet tiles. We offer any colour, richly dyed to your unique vision, **with no minimum order quantity.**

Project facts

The new London HQ office of creative agency Karmarama adds a sense of luxury and fun using design-orientated Westbond carpet tiles for the main entrance, meeting room and presentation areas.

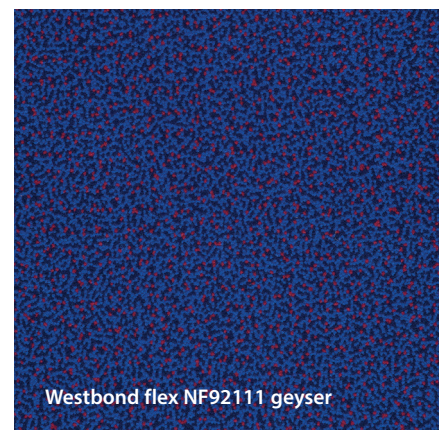

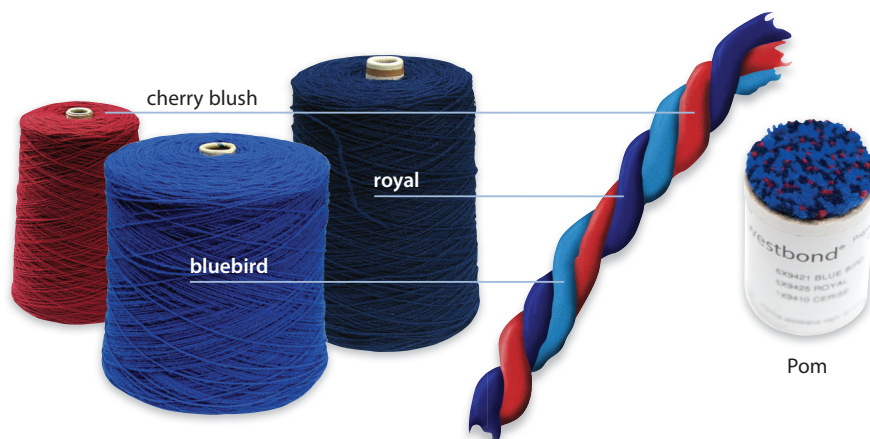

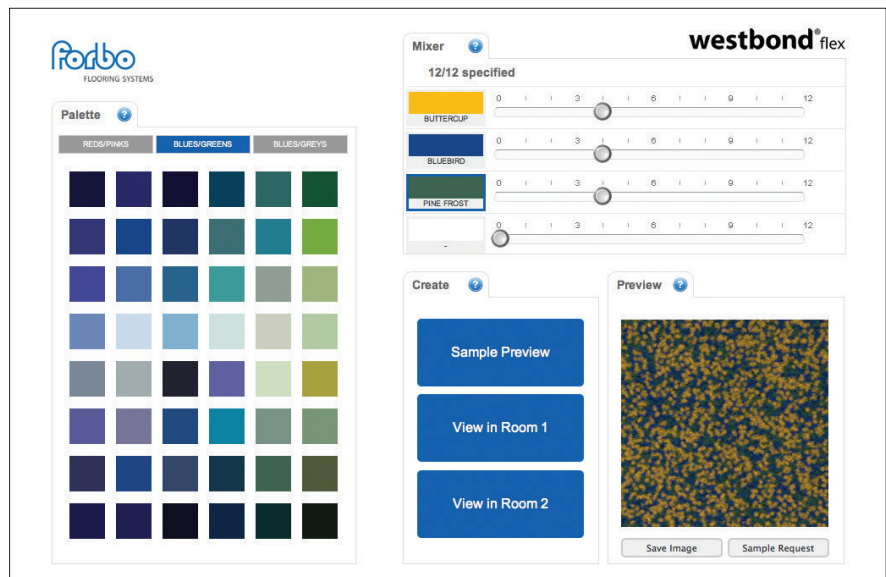

westbond[®] colour westbond[®] flex

When you need to match that perfect colour exactly, our team at Westbond can help you create a carpet tile that is uniquely yours, from 1m².

Alternatively, to create your own Westbond flex carpet tile design simply visit www.forbo-flooring.co.uk/flexcreator or speak to your local Forbo Business Area Manager.

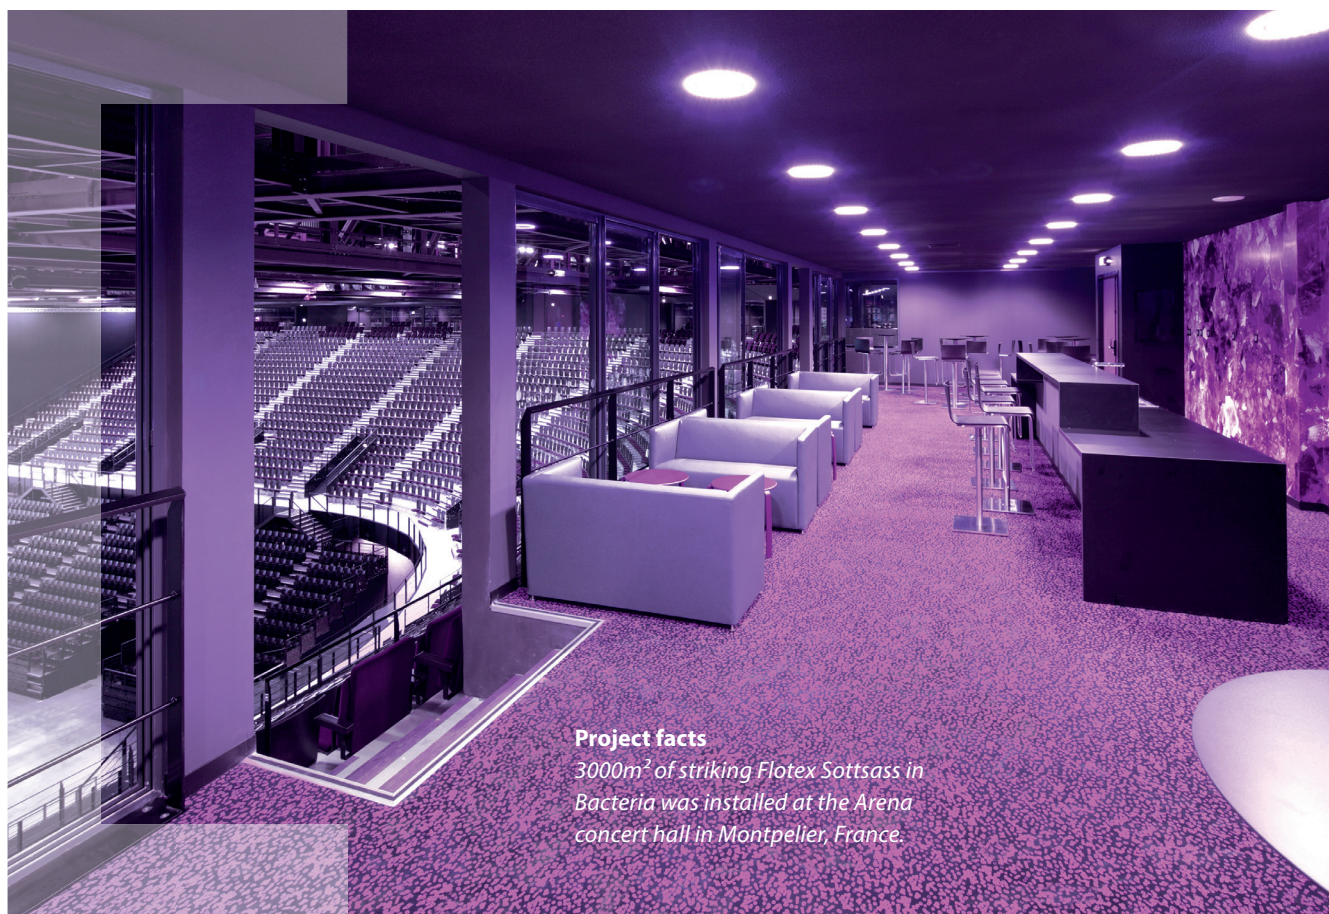

Westbond Flex Creator:

Flex Creator puts the power to create your own carpet tile at your finger tips. Simply choose up to 4 colours from our Westbond palette and our design team can quickly turn your creativity into a sample within two working days.

Shown above are three plain yarns, which are combined together to create your chosen flex design. A 'pom' is then created and sent to help you visualise your unique finished carpet tile.

UNIQUE SOLUTIONS – FLOTEX SOTTSSASS AND FLOTEX VISION

Project facts

3000m² of striking Flotex Sottsass in Bacteria was installed at the Arena concert hall in Montpellier, France.

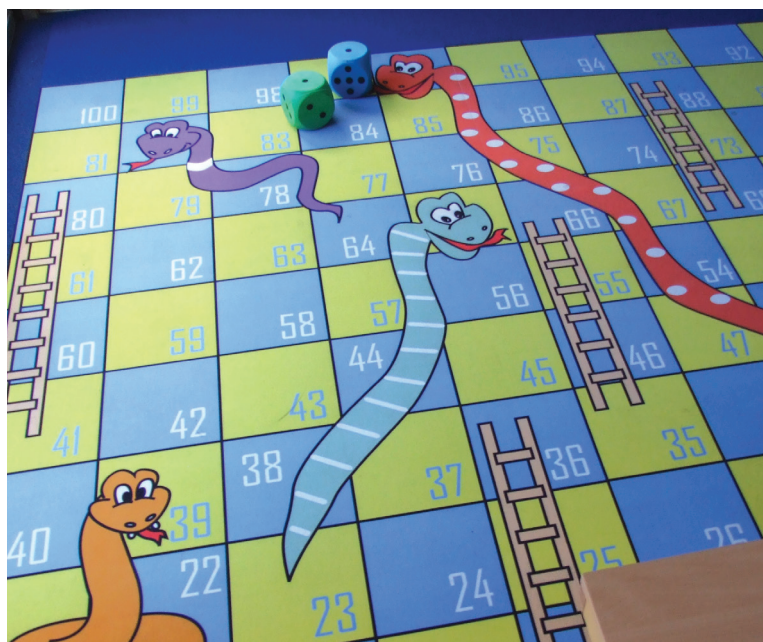

The technical process of digital printing gives you the power to recreate any image or design on our Flotex or vinyl products.

flotex[®] sottsass

A witty twist on the concept of Bacteria. This digital print is part of our Flotex Sottsass collection.

flotex[®] vision

This collection offers an infinite number of design options ranging from abstracts with an intricate colour spectrum to realistic images of natural materials such as grass. There's also the option to recolour an existing design and if you have your own vision of what you want on the floor, we also offer a bespoke design service.

Project facts

Flotex digital printing was used to give a break-time game of snakes and ladders a whole new dimension at St Paul's Cathedral School.

With Flotex Vision, Forbo offers a unique collection of over 500 high definition digitally printed designs.

Project facts

Flotex Vision printed in a special clover design has been used at this college in The Netherlands to create a truly unique floor.

Please note: Digital representations may vary from the actual product. Please order a sample to see the full effect. Contact 0800 731 2369.

UNIQUE SOLUTIONS – BESPOKE DIGITAL VINYL PRINT

Project facts

Forbo's bespoke digitally printed vinyl brought the finishing touch to the Smack nightclub in Leamington Spa, creating a completely unique interior for party-goers to enjoy.

The technical process of digital printing gives you the power to recreate any image or design on our Flotex or vinyl products.

Bespoke digital printed vinyl allows a revolutionary printed vinyl flooring that presents a dramatic and bespoke opportunity to create one off flooring designs that are focal points for interiors.

Project facts

Digitally printed Novilux is used to create a truly bespoke design in Zeeburghuis' offices in Holland.

Millennium Bridge, London
temporary advertising using digitally printed vinyl.

Project facts

Pupils at Clapham Manor Primary School have the whole of London at their feet with the installation of an impressive A-Z street map floor created on Forbo's digitally printed vinyl.

YOU'RE THINKING **DESIGN FLOORS**

Large scale interior schemes often require a number of flooring products with different performance requirements to work together to create an overall flow of design.

Plan design:

The in-house design team at Forbo can help bring your ideas to life as part of our Plan Design Service. Whether you are taking inspiration from one particular product which needs to be carried through the plan, or whether you simply need to see your scheme in the flesh, we can create plan boards of your design complete with product samples.

For areas that have specific requirements such as safety flooring or acoustic flooring, our team can offer help and advice on the best products to meet your needs, all designed to work with your visualisation.

WE'RE THINKING **LET US DO THE WORK**

Project facts

Our plan design service has brought to life a striking new refurbishment project at Loughborough University where a wide range of Forbo's textile and resilient products have been specified as part of an exciting integrated flooring solution.

Call 01772 332 620 to find out more.

Please note: Digital representations may vary from the actual product. Please order a sample to see the full effect. Contact 0800 731 2369.

FORBO'S ROOM PLANNER

...Wouldn't it be amazing if you could visualise how your chosen floor coverings might look on the floor.

Well, thanks to Forbo's innovative new on-line design tool, Room Planner, you can drop products from our entire portfolio into a selection of room shots. For more information, please visit www.forbo-flooring.co.uk/roomplanner

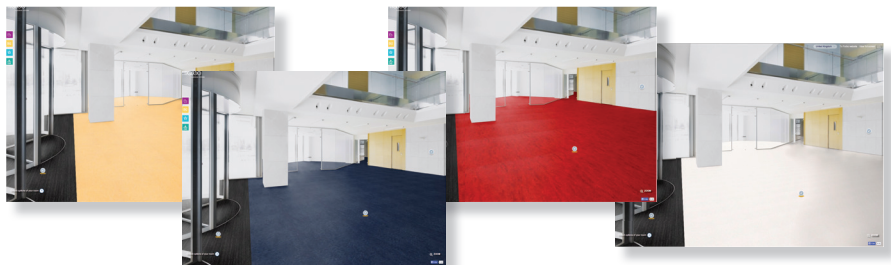

Choose the setting:

You start by looking through the many different images in the Gallery – helpfully split into various market sectors – retail, healthcare, education, etc – choosing a setting that best represents the installation site.

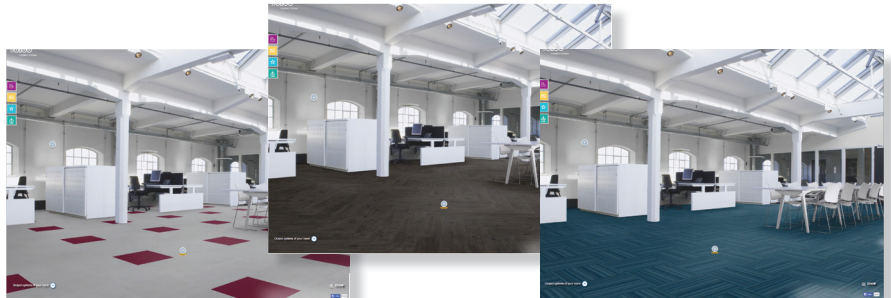

Choose the product...

Then, with just a couple of keystrokes, you can pick and choose the exact range and colourway of floor covering to 'install', experimenting with as many different options as you like.

Choose the layout...

You can even specify how the product is to be laid, a very useful feature, especially where our modular products are concerned.

Useful features:

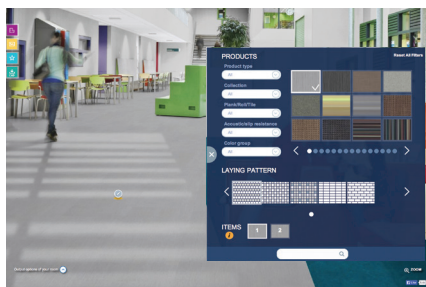

Dedicated 'Entrances' section –

This new section is specifically designed to offer settings where our Coral entrance flooring products can be viewed.

New easy to use product selector –

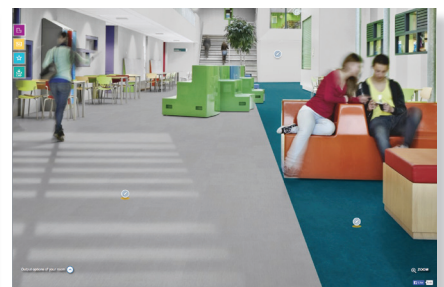

You can now search for the ideal product using various different criteria or by item number.

Facility to combine products –

In some of room images in the gallery you can combine two or three different floor finishes. (Look for images with two paintbrush icons on the floor).

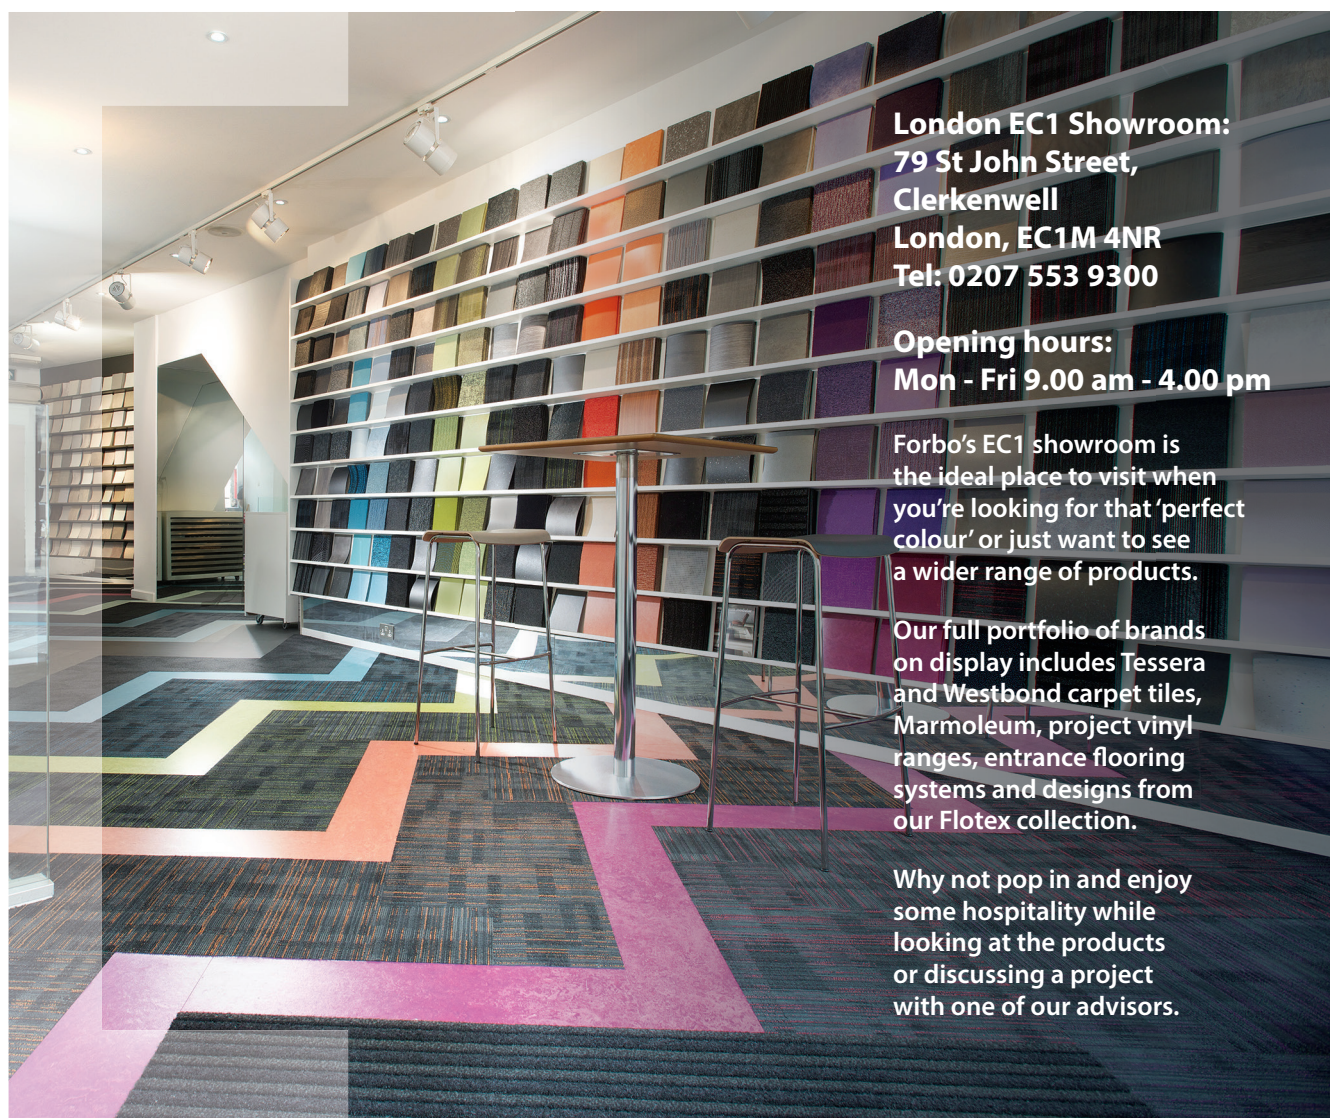

CAD downloads – Download a CAD file of the colour that you are viewing in the floor planner.

Click through – To help confirm a product choice, the "more information" link takes you straight to the relevant product page on the website.

Click to order a sample – So you can see the actual material rather than a digital representation.

WHAT TO DO NEXT

London EC1 Showroom:
79 St John Street,
Clerkenwell
London, EC1M 4NR
Tel: 0207 553 9300

Opening hours:
Mon - Fri 9.00 am - 4.00 pm

Forbo's EC1 showroom is the ideal place to visit when you're looking for that 'perfect colour' or just want to see a wider range of products.

Our full portfolio of brands on display includes Tessera and Westbond carpet tiles, Marmoleum, project vinyl ranges, entrance flooring systems and designs from our Flotex collection.

Why not pop in and enjoy some hospitality while looking at the products or discussing a project with one of our advisors.

For further information on any of the products in this brochure, please don't hesitate to contact us on the number below and we'll be pleased to send you additional literature and samples as required.
