# Why Karndean LooseLay?

**Quick and easy to install**  
All you need is a sound, smooth, dry and dust free subfloor. **Karndean LooseLay** can be fitted over most existing hard floors\*.

**Acoustic qualities**  
**Karndean LooseLay** is perfect for projects where you want to reduce noise levels in the room below such as playrooms, bedrooms and garage/loft conversions, without the need for underlay.

**Comfortable underfoot**  
Our products are softer and warmer underfoot than natural wood and stone flooring. Additional cushioning in the backing helps make the product more comfortable underfoot.

**Realistic designs**  
Available in contemporary larger scale planks and tiles, **Karndean LooseLay** is available in a variety of colour tones and styles.

**Compatible with underfloor heating**  
Up to 27°C

**100% recyclable**

**Individually replaceable**  
Should you need to replace a piece, simply lift the damaged plank or tile and replace with a new one.

**Durable**  
**Karndean LooseLay** is extremely hardwearing. Unlike real wood and stone, it won't splinter, warp or crack.

**Low maintenance**  
We use PU technology to ensure that there is no need to apply an additional surface treatment following installation.

\* Adhesive may be required for some applications, please refer to installation instructions.

### Colour and Pattern Reproduction

We are careful to make sure our brochures are accurate and printed to very high standards, but photography and printing cannot always create a perfect representation of our products. For this reason we strongly recommend that you look at a sample of any product you are considering before placing your order.

All of our products are inspired by things we have seen in the natural world. Just as variation in colour and detail is part of the unique beauty of natural materials, it is also a feature of many of our designs. This means that with some of our products you will see natural variation when your floor is laid. If in doubt, ask your retailer to show you a larger sample of the product.

We love developing new ideas and improving on our existing designs. This does mean that sometimes products are withdrawn at short notice. We hate to disappoint, and will always try to work with you to find an alternative design that you love just as much.

## Things to know about Karndean LooseLay

Karndean LooseLay can be installed on any subfloor that is flat, level, smooth and dry. Your fitter must allow at least 48 hours for Karndean LooseLay to acclimatise to the room it will be fitted in.

We recommend your fitter uses a tackifier or pressure sensitive adhesive to secure Karndean LooseLay around the edges of the room and at thresholds (installation guidelines are available at [www.karndean.com](http://www.karndean.com)).

Maintaining Karndean LooseLay couldn't be easier, regular cleaning with a pH neutral cleaner such as Karndean Clean will help keep your floor at its best.

With a residential guarantee of 15 years, you can rest assured your floor will last for years to come. Unlike real wood and stone, it won't splinter, warp or crack.

## Where to see Karndean LooseLay

Visiting our showroom or one of our retail partners is the perfect way look at all of the designs, speak to a flooring expert, and see the friction grip backing in action. You'll also be able to take home Karndean LooseLay samples so you can match it to the colours in your home, giving you complete confidence you've picked the perfect floor.
